

Homework

Your child's homework folder will be sent home the first day of each week and is due back on the last day of the week (typically Friday). There will be a colored paper with an outline of the week's homework. On the paper is a behavior report where students record what their behavior was for the day. Send the paper in the folder back every day so your child can record his/her behavior. On Friday, I will keep the folder and paper to record homework completed. Thanks in advance for your help!

Math

Your child will generally have two nights of math homework each week. This will be 10 minutes each on IXL reviewing a concept taught in class.

Reading

Your child should read every night for at least 20 minutes. They can read their library book, take home book, raz-kids book, etc. These minutes should be recorded on the monthly reading calendar.

Spelling

Each week your child will have two nights of spelling homework. They may choose a spelling activity from the list in your homework folder.

Language Arts

Each week there will be one night of language arts homework. This will be to read a story on his/her level on raz-kids.com and complete the quiz.

On the homework sheet, there will be a box for you to mark when each homework is completed. Please turn in completed homework paper back on Fridays.
